

Biology and Bioengineering Summer Camp

BBSC-2021

The summer camp titled 'Biology and Bioengineering Summer Camp', between 17th May 2021 to 19th May 2021 took place online through Zoom Meetings from 10 AM to 5 PM. Students from class 8th to college graduates participated in this summer camp. Professors and lecturers from prestigious universities like IIT Bombay, Harvard university, North Carolina state university, etc. instructed students. One student from Stanford university gave a presentation. Students received valuable information through lectures given by eminent doctors from Tata Memorial Center and Jaslok Hospital. The innovative project ideas from students all over India were showcased.

The topics which were covered in the summer camp were

1. Biology and Bioengineering for 21st century
2. Precision medicine
3. OMICS Technologies Big Data and ML

The Summer Camp was also enlightened the students about SARS COV-2, medication at an early stage, the first five crucial days and ways to combat SARS COV-2.

Lab demonstration for protein extraction was showcased.

The Summer Camp also organised interesting quizzes for different levels (Junior Batch, Middle Batch and High Batch) and various scientific speech competitions.

The participants also shared their views on Scientific Facts behind COVID-19 Second Wave in India.

Lastly, in the Valedictory Session, the names of quiz winners and best project ideas for all three levels were announced. Winners received cash prize and certificate.

It was very enriching summer camp for students to learn how to use softwares to create suitable proteins for medicine to fight diseases like cancer.
