Newsletter for the Month of February'23

Dear Parents,

*The sun is growing stronger and the days are a little longer. We can all agree that this is the best time for children to shed the lethargy of the winter months and explore their surroundings. What better way to explore than an excursion! The students of Grade-III will be heading out for an exciting trip to **Kidzania**. The students of Grade 1 will also have a lot going on this month. The wait is finally over for their Special Assembly on the topic- **The Festivals Of India**. After wrapping up the assembly, the Grade-I students will be going for a picnic to **Lodhi Gardens**. We shall also bid adieu to the outgoing batch of Grade-V as they continue on the path of learning. The Junior School shall miss their playful giggles and heartwarming smiles. Meanwhile, the students of Grades III-V will also gear up for their annual exams starting from 28th February 2023. We wish them all the best. Our advice is - don't stress, do your best and success shall follow!*
