NEWSLETTER – NOVEMBER'2018

Dear Parents,

The past couple of months were packed with loads of cultural events and activities that took place in school besides our regular day to day programmes.

The monthly newsletter is one of the ways in which we communicate the efforts in developing our students both academically and emotionally through our instructional and advisory programming.

To help lay the ground work for a successful and bright future for our children we have been learning about-

- Reading stories with valuable lessons to improve their speaking and comprehension skills, practising weekly spelling words, encouraging them to watch Educational YouTube Channels like Baby TV, The Sesame Street, Bedtime Lullaby, Discovery Kids etc. to improve their creativity as well as help them develop cognitive skills.
- Oral & written drills of tables, emphasis on all four mathematical operations.
- To improve their writing abilities, speed and motor skills one page practice of both English and Hindi writing is done on a daily basis.
- For their holistic development, along with academics we give them opportunities to participate in co-curricular activities too. Through music, dance and sports they are made to learn skills like teamwork, leadership, patience and how to overcome obstacles and challenges that come in their way.

We hope to make learning an enjoyable experience for our children and wish you to continue the same with your efforts at home too.

Happy Children's Day!!
