**AWAKEN THE
GREATNESS WITHIN**

Dear Parents,

“SELF-DISCIPLINE is the magic power that makes you virtually unstoppable....”

It's an incredibly practical life lesson for our children to develop. Self-Discipline is the key which will help them remain focused in today's world of internet where everyone has access to everything with just a click of a button.

It's a fact that children who learn self-discipline are better equipped to deal with life's challenges, manage their stress, and make healthy choices even when elders are not around.

WAYS TO BUILD SELF-DISCIPLINE IN CHILDREN

- + Teach self-discipline at an early age.*
- + Teach children to respond to corrections in a positive way.*
- + Be a role model!*
- + Encourage them to take on activities that require self-discipline.*
- + Have rewards, consequences, and rules.*
- + Forgive and move forward.*

By encouraging possession of this skill in them we will make them achieve their goals.....
