JUNIOR SCHOOL

CLASSES (I-V)

NEWSLETTER - JULY'2021

Dear Parents,

As a new month unfolds, our children embark upon new adventures in the world of learning being at home through digital mode.

Recognizing the efforts of Late Shri P N Panicker a leading

face behind Library/Reading movement in

Kerala we celebrated **"READING WEEK"** last

month in which various age-appropriate online

reading-related activities were carried out focusing on developing skills like creative and analytical thinking across all classes.

Promoting the culture of reading it was a pleasure to see our students interacting and actively participating during their Home Room Period by leveraging technology. The much awaited

**ONLINE INVESTITURE CEREMONY** for our newly appointed prefectorial

body for the academic session 2021-2022 will be held on 16<sup>th</sup> July'21.

We look forward to your continued support

as we work together to make learning holistic

and joyful for our little ones. Stay safe and stay protected.

Keep practicing Covid appropriate behaviour.

(Ranjana Dean)

Headmistress

**DELHI PUBLIC SCHOOL, MATHURA ROAD**

**ACTIVITIES FOR THE MONTH OF JULY 2021**

Day	Class	Activity description	Material required	Learning outcomes
12 <sup>th</sup> July	I to III  IV and V	<p><b><u>Paper Bag Day</u></b> Paper Bag Day is observed on 12 July annually to recognise the importance of an invention of Paper Bag that we mostly take it for granted.</p> <p>Children will use their own creative ideas and make paper bags . They will use decorative materials and make it attractive to use.</p> <p>Due to globalisation, climate change and scarcity of raw materials people are adopting sustainable lifestyle choices and using paper bag is one of them. Children will make posters and write slogans on why we should use paper bags.</p>	 	<p>Children will learn that:</p> <ul style="list-style-type: none"><li>*Paper bags are made from renewable raw materials, are recyclable and biodegradable.</li><li>*No doubt they are strong and are used in almost all occasions.</li><li>*Several people are using bags every day made up of paper and also help in curbing environmental pollution.</li><li>*It reduces the use of plastic bag which causes pollution and are non-biodegradable.</li></ul>
