# SUSTAINABLE DEVELOPMENT GOALS

# SUSTAINABLE DEVELOPMENT GOALS

## INTRODUCTION

The Sustainable Development Goals (SDGs), or Global Goals are a collection of 17 interlinked global goals designed to be a "blueprint to achieve a better and more sustainable future for all". The SDGs were set up in 2015 by the United Nations General Assembly and are intended to be achieved by the year 2030.

The 17 SDGs are integrated—they recognize that action in one area will affect outcomes in others, and that development must balance social, economic and environmental sustainability.

Our students made us proud by participating in these SDG events and linking them to their curriculum. It was a fun-filled experience for the students and their teachers. We are truly proud of our little ones. Enjoy the beautiful presentations. This is our humble endeavor towards sustainable development goals.
