

DELHI PUBLIC SCHOOL MATHURA ROAD
PRE – PRIMARY WING

Important Circular

Dear parent,

As you are aware HFMD is a highly infectious viral and as parents you need to take utmost care not to expose other children to the viral. Kindly do not send your child to school if he/ she is unwell (even with a slight cold or cough) till the doctor gives clearance for the same.

There has been a slight increase in the number of cases in HFMD in the Pre – Primary Wing. **As a precautionary measure classes Pre – School and Pre – Primary will remain closed for two days i.e. 1st and 2nd August 2019. The school will reopen on Monday i.e. 5th August 2019.** We will be carrying out the fumigation process again in all the rooms in the wing.

As we have stated earlier many measures have been taken by the school authorities to control the spread of the infection which are as follows:-

- The premises is being disinfected and sanitized regularly.
- Fumigation of all rooms including the washrooms has been done thrice in the last two weeks. Fumigation of classes where any case was reported has been done multiple times.
- Further Dettol is being used to clean all surfaces including tables and chairs.
- The floors are being mopped with strong disinfectants too.
- Due action is being taken in consultation with the school doctors.
- The children are being made to wash their hands with soap repeatedly during school hours.
- Teachers are personally checking on the cleanliness of washrooms to maintain a safe and hygienic environment for the children.
